These boats have been specially built for the more Southern Coast Trade that has Hopkong for its centre, and in connection with which portant position:

The China and Calcutta branch of the Company's Service will take the place of the Steamers (their own or chartered) which Messrs Jardine, Matheson & Co. have run for upwards of twenty-six years, and which have carried the mails between China, the Straits Settlements, and India. This line is a valuable one, and is considered of growing importance, owing to FOR SWATOW, AMOY & FOOCHOW. the increasing passenger traffic and trade of China with the Straits Settlements and India. It is proposed to build two large and powerful Steamers, specially adapted to this branch of the trade, to take the place of the Chartered Vessels at present employed in the service, and the Directors expect that to accomplish this, and to make the desirable additions to the Coast and River Services, an outlay of £185,000 will be amply sufficient.

The carnings of the CHINA COAST STEAM NAVIGATION COMPANY'S fleet during late years, the results obtained by Chartered Steamers on the lines so provided with tonnage, and the working of the Yangtsze River Service, show good realised profits. and it may confidently be anticipated, with the substitution of European Vessels for the native Junk that is taking place on the Coast of China, and the general expansion of the Carrying Trade in the Eastern Seas, and on the Rivers of China, that the Company will find ample scope for profitable enterprise. The business, though still capable of great development, has the benefit of being a going concern, and active service is proceeding on all the lines in-dicated, bringing in a revenue out of which the Directors reasonably expect profits to pay Dividends, besides forming a Reserve Fund for Depreciation in the value of

WE are informed by the Agents (Mesars Adamson, Bell & Co.) that the S. S. Glamis Castle, from London, left Singapore yesterday for this port.

It is stated in the Alta California of Jan. 21 that there is some probability of Colonel Mosby going to Shanghai to assume the duties of the Consulate-General there. This probability was known here some time ago, when Colonel Mosby wrote home declining to accepe the post.

On Saturday afternoon while a Norwegian seaman Agath Gibson, on board the W. H. Besse, was working aloft, the main top gallant yard fell, and striking him in its board the Packet with Late Fee of 10 fall broke his left leg in several places. The man was removed to the Government Civil Hospital.

> THE Batavia Dagblad states that the steamer Atjeh, despatched from the North Sumatra Station in search of the missing boats of the foundered steamer Koning der Nederlanden, had arrived unauccessful at Point de Galle. On her return voyage she is to call for that purpose at the Chagos and Maldive islands.

Some time ago Colonel Mosby, U. S. Consul, sent home a despatch drawing the attention of his Government to the humane conduct of Captain Waring of the Gordon Castle in rescuing the shinwrecked prope of the American ship Humboldt. A despatch has now been received, informing Colonel &c., at the residence of Surgeon Major | Mosby that steps are about to be taken towards recognizing Captain Waring's humanity.

The blasphemous wretch, during Judge Porter's address kept up a continual stream of outrageous utterances and got more and more frenzied as the counsel for the prosecution tore his insanity theory to piecea. During the Judge's summing up, he sat remarkably quiet, but when the jury had given their verdict he again protested, screaming that his blood would be on their heads. The country is greatly pleased with the decision, and calls are made from some parts to string him up quick." The same argument is used with reference to the Italian shipping, the development of which is likely to receive an impulse from the amalgamation of the two most powerful companies, so as to constitute the Austrian Lloyds. Another influence in the same direction will probably be the increased anxiety of the Austrian and Hungarian ports of Trieste and Finme to develope their connections with distant countries.
